

Cuttyhunk CAN! eMail Blast v.1 no. 2, August 13, 2022

Hello Cuttyhunk CAN! subscribers-

With continuing thanks for your support, greetings from the Gosnold-Cuttyhunk Climate Action Network.

Today, with thanks to co-organizers Weezie Garfield and Interpretive Naturalist Allie Thurston, we're delighted to announce news of **"Nature Rules: Responsible Plant Choices,"** our first public program, an informative walk 'n talk departing from the bottom of the Church path this **Tuesday, August 16 at 10:30 a.m.** Allie, first to go barefoot in the spring and last to wear shoes in the fall will lead the event.

For details visit our website. <https://www.cuttyhunk-can.net/events> - and please feel free to help spread the word!

We're also happy to report that our [website](#) is getting plenty of traffic, with our [climate action plan](#) the most visited page in the last six weeks. We hope this is helping promote good conversation about ways we can all mitigate climate change while improving the island experience.

Wishing all a great summer.
